METHODOLOGY

Survey conducted December 8 through December 9, 2021. 1,145 likely 2022 General Election voters participated in the survey. Survey weighted to match expected turnout demographics for the 2022 General Election. Margin of Error is +/-2.8% with a 95% level of confidence. Totals do not always equal 100% due to rounding. The methodology utilized in this survey is the same methodology that allowed RRG to be one of the only pollsters in the country to predict the 2016 Presidential election and be rated by 538 as a top 5 GOP polling firm.

KEY POLL FINDINGS

*West Virginia voters are familiar with and have already formed strong opinions on President Joe Biden’s Build Back Better Act (BBB). 62% of respondents report having seen, read, or heard “a lot” about the bill. A 53% majority of West Virginias strongly oppose the legislation, with 59% of independents strongly opposing.*
